In the **'THE ARMED MAN'** Karl Jenkins looks back and reflects on the last, most war-torn and destructive century in human history, and looks ahead with hope to a new and more peaceful millennium. Within the basic mass form, he has woven a variety of poetry and prose and a wide range of musical styles that reflect our multi-cultural and global society. It tells a story, makes us think and tugs at our heart strings.

Taken from the forward by Guy Wilson, Master of The Armouries.
